

For these/these devices/software we cannot provide any spare parts or support anymore:

- **CheckCon < 3.xx** - Control software for instrument transformer test systems
- **COM303-1, COM303-3, COM3000** - Comparator
- **DS3xx (constructed before 2010)** - Error calculator
- **EPZ301, EPZ305, EPZ303-1** - Reference meter
- **ET113, ET114, ET115, ET116** - Handheld terminal
- **II6xxx, II7xxx, II8xxx** - Precision transformer
- **MCS** - Software for simulation
- **MT3xx (constructed before 2010)** - Portable reference meter
- **MT400, MT5xx (constructed before 2010)** – Portable source
- **MT3000 (constructed before 2010)** – Portable reference meter, portable source, booster, modules
- **MT3606** – portable test system
- **MT34xx (constructed before 2010)** – AC current clamp
- **RMM303-x, RMM3000** - Reference Multimeter
- **RP, RPE** - Relay test set, source
- **SCBxx-xx-x** – conventional standard current burden
- **SVBxxx-xx-x** - conventional standard voltage burden
- **SES20x, SES250, SES30x** - Control unit
- **TK10x, TK30x, TK311, TK323** - Scanning head
- **TPZ1xx, TPZ3xx** - Portable reference meter
- **UB, UBS, UBA** - Load converter
- **V107, V11x** - Amplifier
- **VCS32x** - Portable source
- **VME1xx** - Frequency generator
- **WinSAM < 6.xx** - Control software for meter test systems
- **WM1xx; WM303** - Measuring bridge

Please remark that this list contains only our current standard products. Service will be restricted or not at all possible for all other ZERA products which are older than 10 years.

If you have any questions, please do not hesitate to contact ZERA service department service@zera.de
